

## CASE STUDY

# Ben Porat Yosef, a Jewish day school in New Jersey

## A small finance office transforms outdated systems and delights parents.

Shoshi Ryp is not only the Director of Finance at Ben Porat Yosef, she's also the proud mom of three students there.

Prior to 2013, the Finance office did virtually everything in Microsoft Excel. That meant multiple versions of lists that could change at any moment. They used a software product for billing collection, but it didn't integrate with admissions or enrollment. Much time was spent fielding calls from parents with billing questions. Other problems arose due to human error.

When the department lost a team member, that left only Shoshi, so her workload doubled. Enter TADS (now a product of Community Brands). The school said good-bye to Excel files and Soshi was able to keep the office running at full speed, saying, "I don't know how I would have gotten through that time without TADS."

They now use Community Brands products for student tracking, tuition agreements, billing, financial aid, and camp fees.

### Solutions by Community Brands K-12

TADS for Admission,  
Enrollment, Financial Aid and  
Tuition Management

"Multiple parents have thanked me for switching to TADS and have told me how the process is so much better and smoother."

**Shoshi Ryp,**  
Director of Finance

### Saved time

Nine out of 10 payment errors that would previously have required a personal interaction can now be resolved by TADS. Shoshi has more time for meaningful interactions with families.

### Streamlined processes

TADS let the school follow a family's journey from application through billing, and everything that happens during the year. All departments have access to the same, real-time information.

### Satisfied parents

One of the best things about Community Brands, Shoshi says, is the positive reception from families. Parents appreciate the payment flexibility and easy access to their information.

**“TADS really is an extension of our team here at BPY. The flexibility in the system is just unparalleled. It’s made things smoother, easier, more practical. It’s better for the parents. It’s really changed the way we work here.”**

**Shoshi Ryp**, Director of Finance

## About Community Brands K-12

Community Brands K-12 is a family of dedicated, education-focused software and service companies working closely with more than 4,500 schools to help them thrive in today's diverse education environment. Our K-12 Select Suite offers you the most powerful and flexible software solutions uniquely designed to help you find the right students, ease families through the admission and enrollment process, coordinate financial aid, manage tuition and process payments. We are passionate about education technology, and believe by working together, we can deliver the best solutions for our schools.
